ASSIGNMENT-1

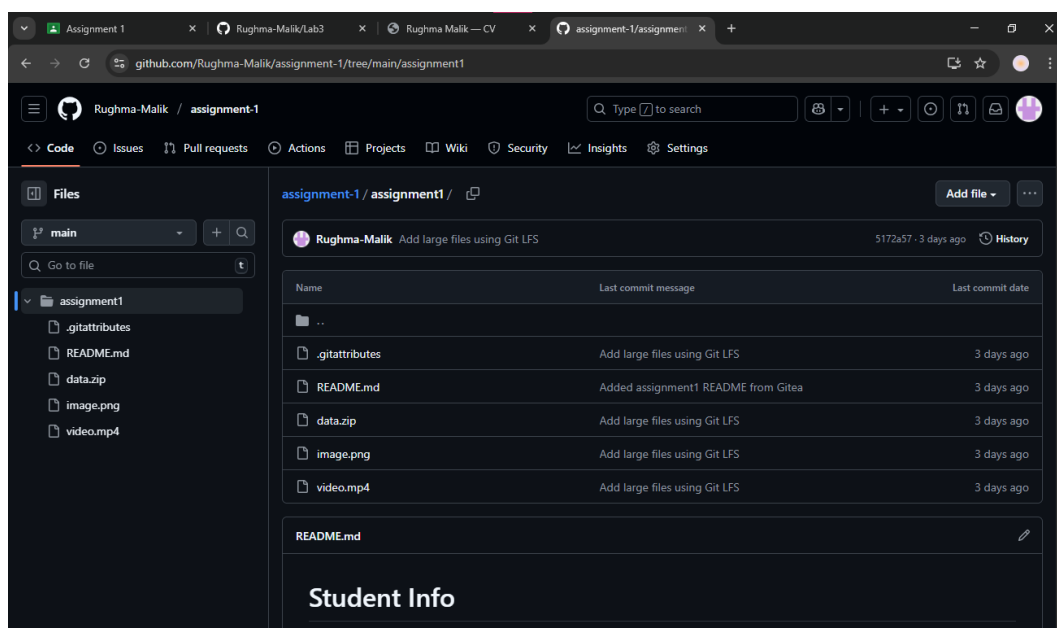

- Screenshot of your Gitea repository (showing README listing names & roll num)

The **Gitea repository screenshot** shows the initial repo with the README file containing my name and roll number.

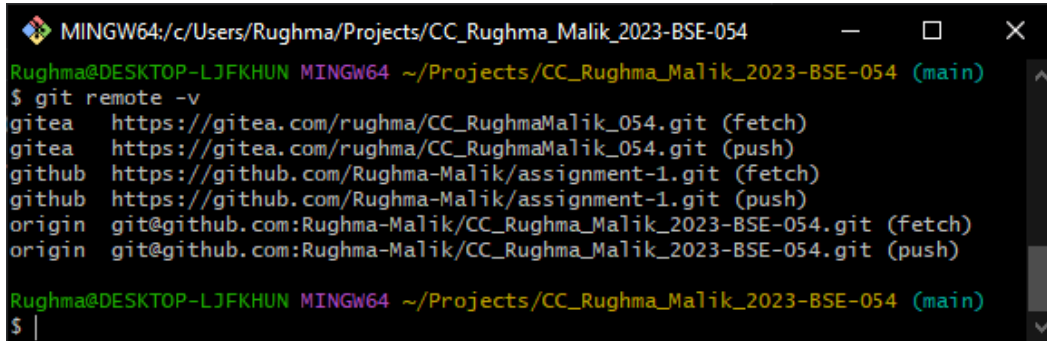

- **GitHub assignment 1 repo link (with README and large files)**

<https://github.com/Rughma-Malik/assignment-1>

The **GitHub assignment 1** link shows the mirrored repository with all files, including large files added using Git LFS.

- Screenshot or output of `git remote -v` showing both remotes

A terminal window titled 'MINGW64: c:/Users/Rughma/Projects/CC_Rughma_Malik_2023-BSE-054' showing the output of the 'git remote -v' command. The output lists two remotes: 'gitea' and 'github', each with fetch and push URLs. The 'gitea' remote points to 'https://gitea.com/rughma/CC_RughmaMalik_054.git' and the 'github' remote points to 'https://github.com/Rughma-Malik/assignment-1.git'. The terminal prompt is '\$ |' on a new line.

$ git remote -v

gitea    https://gitea.com/rughma/CC_RughmaMalik_054.git (push)
github   https://github.com/Rughma-Malik/assignment-1.git (fetch)
github   https://github.com/Rughma-Malik/assignment-1.git (push)

The **git remote -v** screenshot confirms that both Gitea and GitHub remotes were correctly added and linked.
